## THE SANCTUARY® BLANKET PROJECT

### **Call for Volunteers!** **We need crocheters and knitters to make blanket squares for children in need of comfort, warmth and love.**

The Division of Volunteer Services and the Sanctuary® Project at JBFCS have begun a project to provide all children who leave the residential treatment programs with a hand-made blanket.

The children in our programs have had lives filled with trauma, violence, poverty and other stressors. The purpose of giving a Sanctuary blanket to each child who leaves our residential programs is to help them transition from one home to the next. We hope the blanket will remind them of the good things they experienced here, and provide comfort in their new life.

### **We need your help to make this possible!**

If you are interested in making blanket squares by yourself, starting a group with friends or co-workers, or learning more about our project, contact Lisa at JBFCS. She will send you all the information about patterns and needle sizes.
